

# CALL TO ARTISTS

Deadline: May 15, 2025 (rolling acceptance)  
Budget: Various Opportunities  
Eligibility: Harris County Residents (18 years old +)

On behalf of Harris Health, art consultants Davis Cohen Art (DCA) are hosting educational sessions to provide information to all Harris County artists about the Lyndon B. Johnson Hospital Campus Expansion. This *Call to Artists* is open to **visual and graphic artists** of all backgrounds and professional levels, offering the chance to be considered for many locations throughout the new hospital and campus. Applications will be reviewed on a rolling basis, allowing artists to be considered as soon as their application is received, rather than waiting until the deadline. Please do not wait until the deadline to submit your application.

Please carefully review the *Call to Artists* via the link to CaFE to understand the project details and submission requirements. You must submit your qualifications through CaFE, a free platform for artists. If you applied for the previous Call to Artist for the Garage Facade Opportunity, you must reapply.
